

Public Notice

NEW CURBSIDE RECYCLING PROGRAM Starting January 7, 2026

The Municipality is implementing a new automated recycling collection system.

Recycling will now be collected by a specialized truck instead of manual pickup.

Collection Schedule

- **Recycling:** Every second Wednesday
- **First collection:** Wednesday, January 7, 2026
- **Garbage:** Continues every Thursday (manual collection by Public Works)

Set Your Bin Out

- Place your recycling bin at the curb before **7:00 a.m.**

Proper Bin Placement (Required)

To ensure your recycling is collected, bins must be placed correctly for the automated system:

- Leave at least 60 cm (2 feet) of space between the recycling bin and:
 - Garbage bins or bags
 - Parked vehicles
 - Snowbanks
- Any other obstacles
- Place the bin with the wheels and handles facing your house
- The lid must be fully closed
- Do not overload the bin
- Do not place objects on the lid
- Remove snow from the lid
- Whether there is snow or not, place the bin so it is clearly visible and accessible for the operator.

Failure to follow these instructions may result in the bin not being collected.

Please refer to the illustrated guide attached for a visual explanation.
